

Full-Stack Java Developer

About Us:

Corner Case Technologies is a fast-growing technical and business partner for a number of startups. We design and build intelligent software solutions for growing businesses; currently, looking to strengthen our team bringing in like-minded individuals who share a passion for creating great ideas, and translating them into engaging, intelligent and innovative products.

We are sociable, wonderfully collaborative, share an **eagerness to learn** and are enriched by the relationships we forge with our clients.

Looking for a **Full Stack Java Developer**

with experience in building high-performing and scalable applications!

Your mission would be to design and build intelligent software solutions for growing businesses.

You will have:

- The opportunity to work on exciting projects for clients ranging from early startups to the mid sized companies. You will be on a team dedicated to employing best-practices across a range of technologies.
- A lot of influence on the products. As we practice bottom up approach in our company, you will be involved in decision making while working alongside with our CTO.
- Access to the tools and support you need to face new, exciting challenges and succeed.
- Opportunities to become either a senior developer or a team lead along with the growth of the team

If you have:

- At least 3-5 years of programming experience
- Proven working experience in Java development
- Frontend skills: Angular/React
- Object Oriented analysis and design using common design patterns.
- Profound insight of Java and JEE internals (Classloading, Memory Management, Transaction management etc)

- Good knowledge of Relational Databases, SQL and ORM technologies (JPA2, Hibernate)
- Then you are exactly who we are looking for!**

Benefits:

- Influence on our products, involvement in decision making
- Competitive monthly salary from 2000 eur after taxes
- Career opportunities to become either senior developer or a team lead
