

Full-Stack Python Developer

We are looking for a **Full Stack Python Developer** with experience in building high-performing and scalable applications.

About Us:

Corner Case Technologies is a fast-growing technical and business partner for a number of startups. We design and build intelligent software solutions for growing businesses.

CCT core team is based in Vilnius, Lithuania.

We are looking to build our team bringing in like-minded individuals who share a passion for creating great ideas, and translating them into engaging, intelligent and innovative products.

We are sociable, wonderfully collaborative, share an **eagerness to learn** and are enriched by the relationships we forge with our clients.

Your mission:

- At Corner Case Technologies, you will have the opportunity to work on exciting projects for clients ranging from early startups to the mid sized companies. You will be on a team dedicated to employing best-practices across a range of technologies.
- As we practice bottom up approach in our company, you will have a lot of influence on the products, and you will be involved in decision making while working alongside with our CTO.
- When you join our team, you'll have access to the tools and support you need to face new, exciting challenges and succeed.
- Along with the growth of the team, you will have opportunities to become either a senior developer or a team lead.

Qualifications:

- You have 3-5 years of programming experience
- Proven hands-on Software Development experience
- In-depth knowledge of a JS framework - Angular/React
- Proven working experience with Python (additional backend technologies is a big plus)
- Expert knowledge of web technologies, the drive to continuously improve our products and a motivated, and creative personality

What we offer:

- Career opportunities
- Influence on our products, involvement in decision making
- Competitive monthly salary (depending on your experience)
